RJ45 port wiring in the KTP 50-88 panel

Patch block wiring

- Benefits:**
- Easy installation to 19" industry standard racks
 - Mounts allow for cables to be tied directly to the panel
 - **High density of installation - 50 ports (100 pairs)**
 - **Reduced footprint - 1 rack unit**
 - Accepts AWG 26 up to AWG 22 wires

- **Easy access during installation in communication racks or cabinets - patch blocks are in line with the panel**
- **Improved access to single ports (when compared to multiport blocks)**
- Attractive price / performance ratio
